

# Parents' Letter

21 July 2021

Dear Edufront Parents

## **Back to Online Classes in Phase 2 (Heightened Alert)**

In line with the Phase 2 (Heightened Alert) national stance and the advisory from the Ministry of Education (MOE), please be informed that physical lessons at all our centres will be moved online from **22 July to 18 August 2021**. While we prioritise the safety of our students, staff and everyone involved, we will also do our best to ensure that our students can continue to meet all the learning objectives and excel in their studies.

### **1. No Changes to Class Schedule**

To minimise disruptions to the scheduling and students' learning, our tutors will be conducting the online lessons following the same class schedule. Parents will receive the links before the start of the class via WhatsApp. Our tutors will be using popular video-conferencing apps such as Zoom, Google Meet or Clickmeeting. Kindly ensure that your child has good headphones and microphones to maximise engagement and tutor-student interaction.

### **2. Homework Submission – Personalised Folder**

Submission and return of students' work will be made entirely online via g-drive. We have created a personalised folder for each student to upload their completed work for marking. Kindly contact our centre coordinators if you have yet to receive the links to your child's folder.

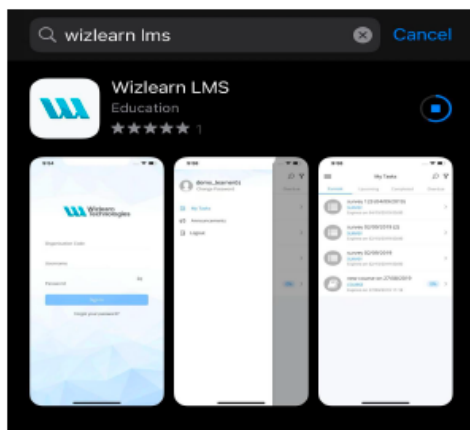

### **3. Home Delivery of Materials (Hardcopies)**

We are making arrangements for the home delivery of August materials (and remaining July materials, if any) via SingPost (PolyM). You should receive the package in your letter box by 28 July 2021. This will save parents and students valuable time and the hassle of downloading and printing the huge number of materials. Kindly contact our admin staff at the respective centres if you do not receive them by 28 July. The softcopies of all materials are also available online in the LMS.

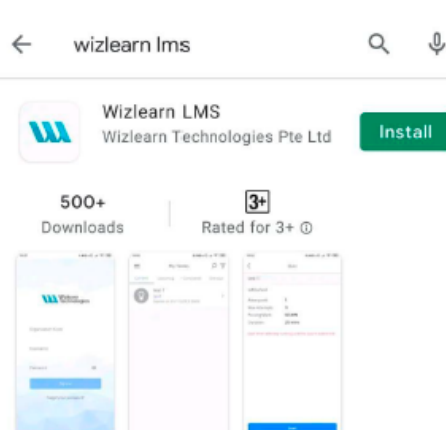

### **4. Our LMS is now available in Apple App Store and Google Play 📱**

We are also pleased to inform parents that our LMS is now available via mobile app at Apple App Store (iOS) and Google Play (Android) in addition to the regular web login at [www.lms.wizlearn.com/edufont](http://www.lms.wizlearn.com/edufont)

All Edufront students have their own unique LMS account and will have exclusive access to a wide range of learning resources in the programmes they are registered in which they can now view via mobile app.

Some of the features of the LMS:

- Convenient access to Learning Materials, softcopies of worksheets and weekly recorded online lessons
- Test papers and quizzes with automated marking for drill and practice and revision of concepts
- Forum discussions with our tutors/Homework Hero for daily homework help
- Track student learning progress with report

We would like to thank parents for your support. For suggestions, feedback and enquiries, you may get in touch with our respective Centre Coordinators (<https://edufront.com/contact/>) during our regular opening hours.

Yang Iskandar (Mr)  
Principal  
Edufront Learning Centre
